# What did you learn?

*Instructions:* Reflect on what assumptions you tested, what you learned and how you will iterate on your idea.

TEST A PROTOTYPE | TESTING PROTOTYPE REFLECTION | REFLECTION GRID | WHAT DID YOU LEARN? | IDEA EVALUATION | EVALUATING PROTOTYPES | WHAT'S NEXT?

**1** ASSUMPTION
What was the assumption that this prototype was designed to test?

**WHAT DID YOU LEARN?**
What did you learn from your stakeholders about the assumption you were testing?

**WHAT WILL YOU DO?**
How will you iterate on your idea based on stakeholder feedback?

**2** ASSUMPTION
What was the assumption that this prototype was designed to test?

**WHAT DID YOU LEARN?**
What did you learn from your stakeholders about the assumption you were testing?

**WHAT WILL YOU DO?**
How will you iterate on your idea based on stakeholder feedback?
